Inspired by Nature

This is an introduction to Sumi-e, the traditional art of Japanese brush painting using ground ink. It will be an opportunity to discover how painting can be spiritual practice with an emphasis on spontaneous brushwork and playfulness while using themes from nature, including still-life and landscape. Michael has lived in Kyoto, Japan for over 30 years where his studies have been guided by the master Sumi-e painter and Zen priest, Jikihara Gyokusei.
